

Windows 10

Trainer Camera Help Steps

**If you have already installed a program, uninstall
and restart your computer now.**

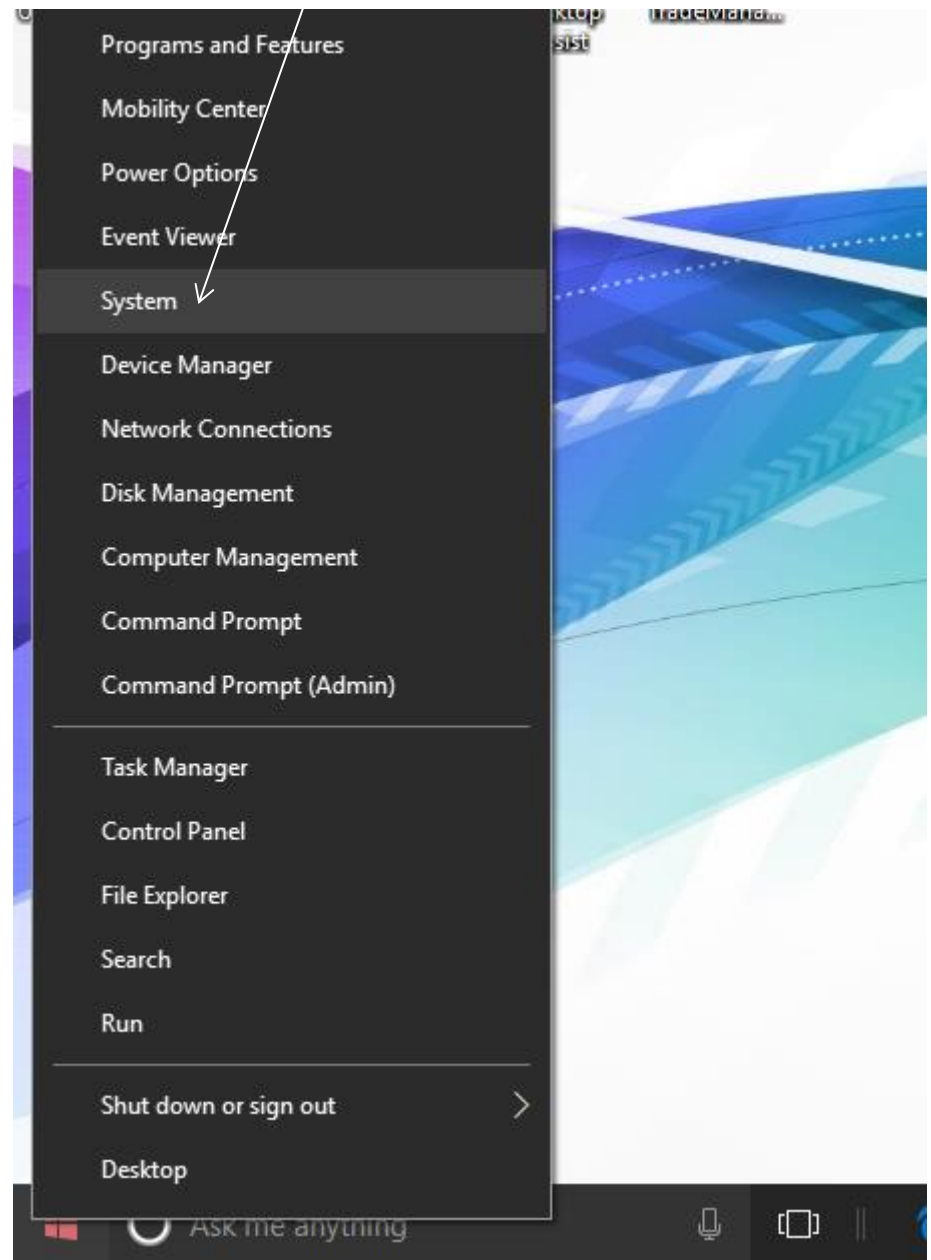

Then

BEGIN

1. On your Desk Tops left corner
Right Click on the Windows Icon

2. Choose "System"

3. Choose "System Protection"

The screenshot shows the Windows 10 Control Panel window titled "System". The address bar indicates the path: Control Panel > System and Security > System. The left-hand navigation pane includes links for "Control Panel Home", "Device Manager", "Remote settings", "System protection" (highlighted with a blue arrow), and "Advanced system settings". The main content area displays system information under the heading "View basic information about your computer".

System

Control Panel > System and Security > System

Search Control Panel

System Properties

Computer Name | **Hardware** | Advanced | System Protection | Remote

Use system protection to undo unwanted system changes.

System Restore

You can undo system changes by reverting your computer to a previous restore point.

Protection Settings

Available Drives	Protection
TI10653400C (C:) (System)	On
HP Portable Drive (E:)	Off
Recovery	Off

Configure restore settings, manage disk space, and delete restore points.

Create a restore point right now for the drives that have system protection turned on.
